# Introducing ISO 19650 Standard for BIM

## Agenda

- Introduction to ISO 19650  
Gain an understanding about the new ISO 19650 international standards for BIM
- BSI BIM Certification  
Our journey so far and the introduction of ISO 19650

We are a purpose-driven  
business focused on  
Organizational Resilience.

By Royal Charter

- We work for the public good to improve, standardize and simplify business systems
- Profit is reinvested back into BSI and never distributed
- We are independent from outside influence

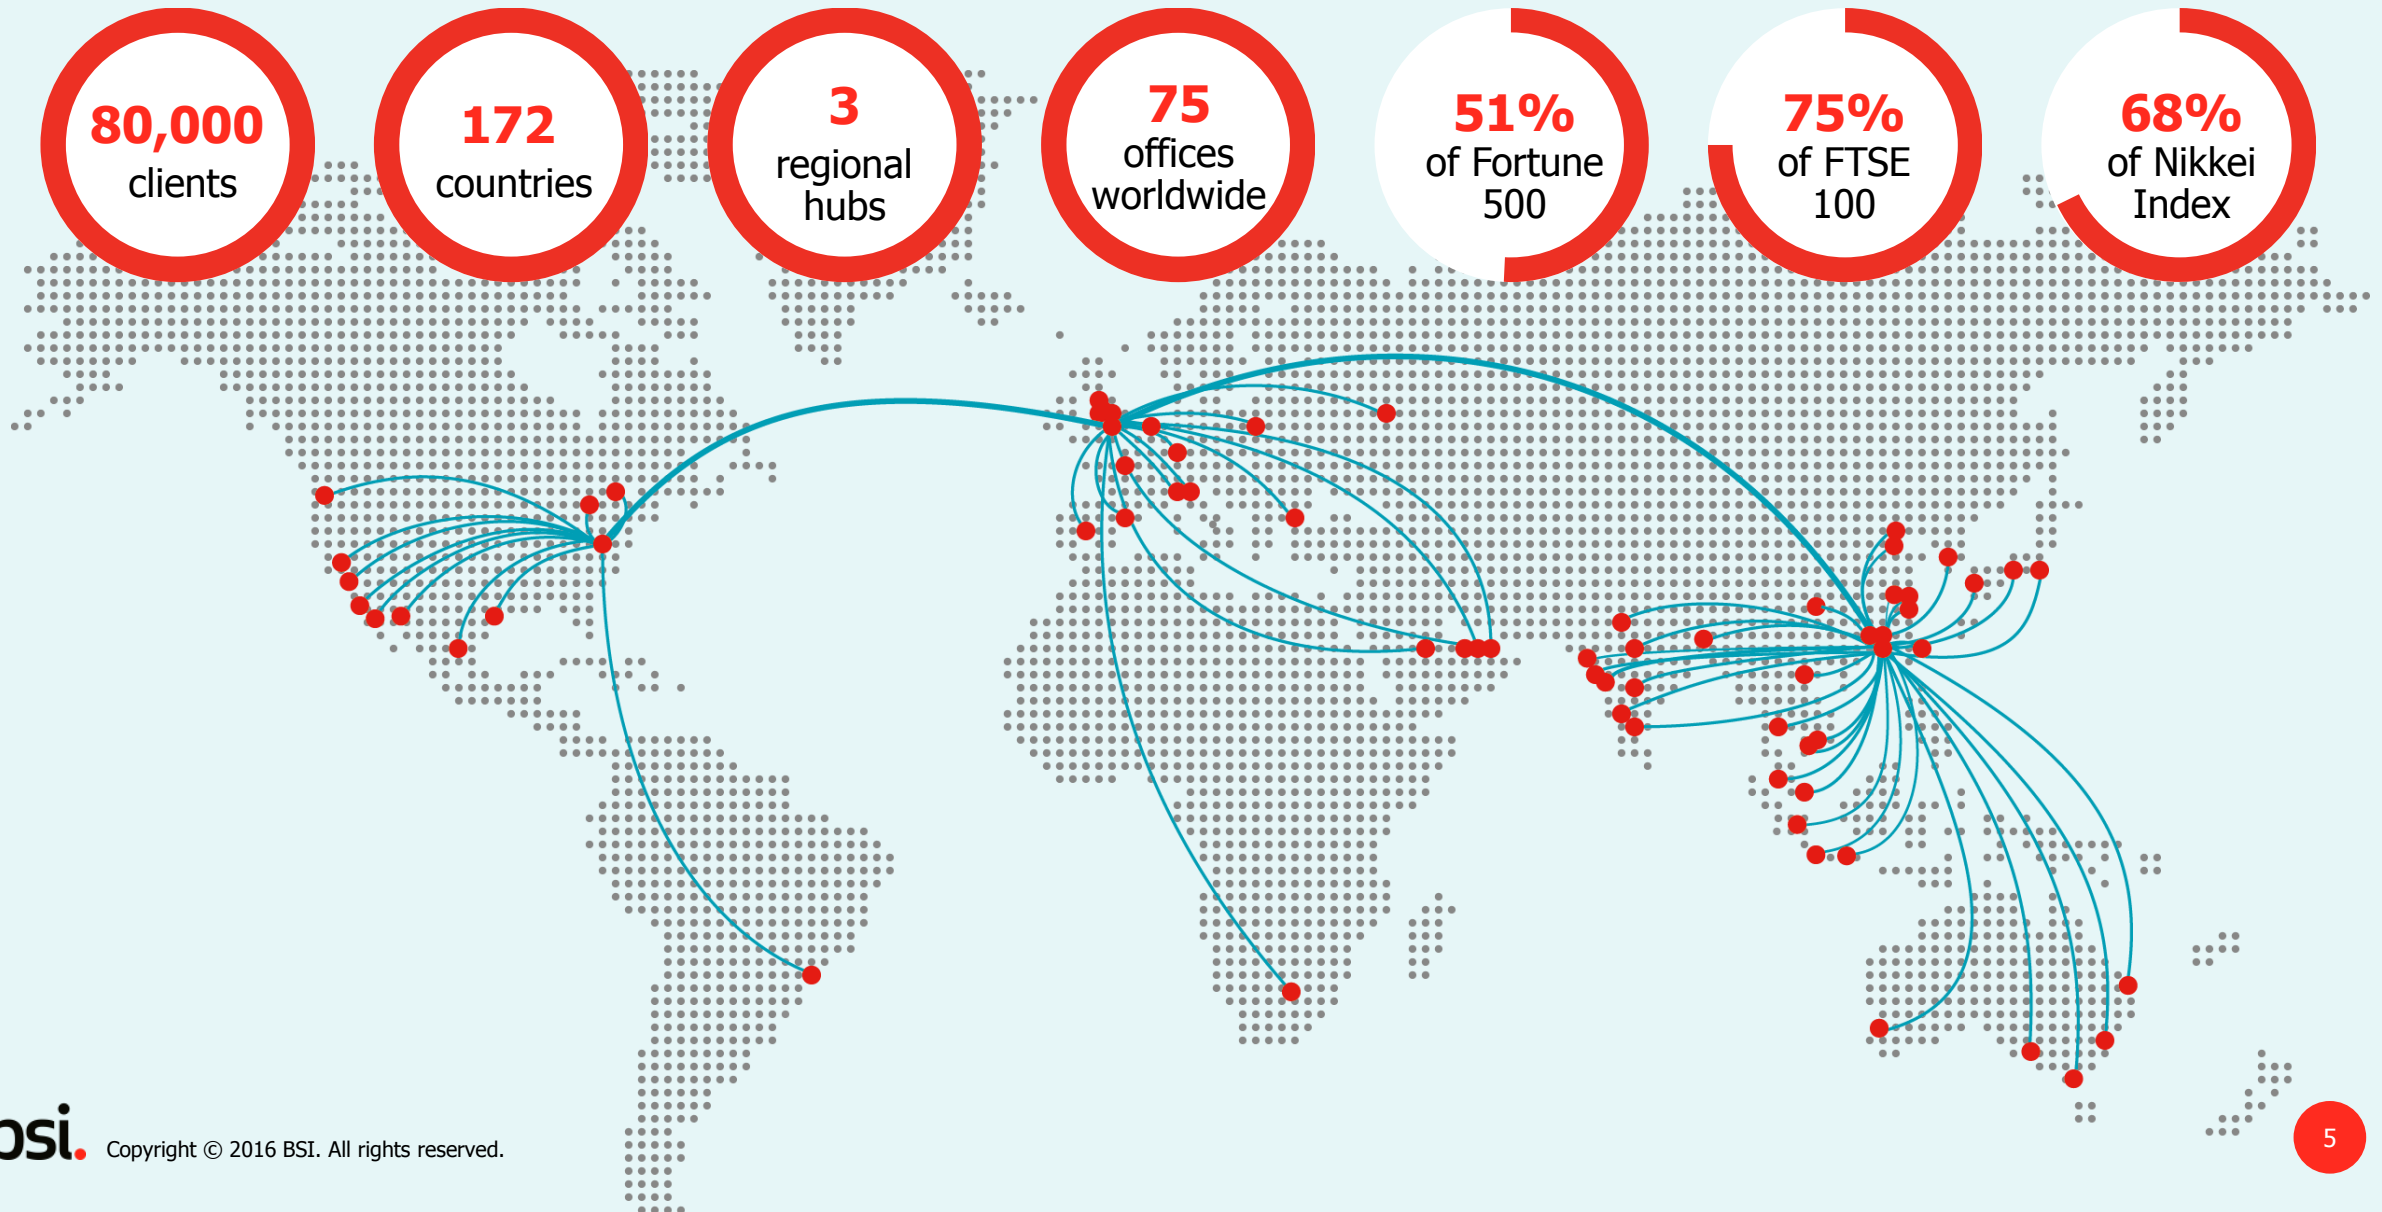

Around the world,  
we enable businesses  
like yours to turn  
best practices into  
habits of excellence.

**84,000 clients** in **193** countries  
**50%** of the Fortune 500  
**84%** of the FTSE 100  
**81%** of the Nikkei 225 Index  
**23 of the Top 25** medical device  
manufacturers certified

PAS 1192-5  
Security

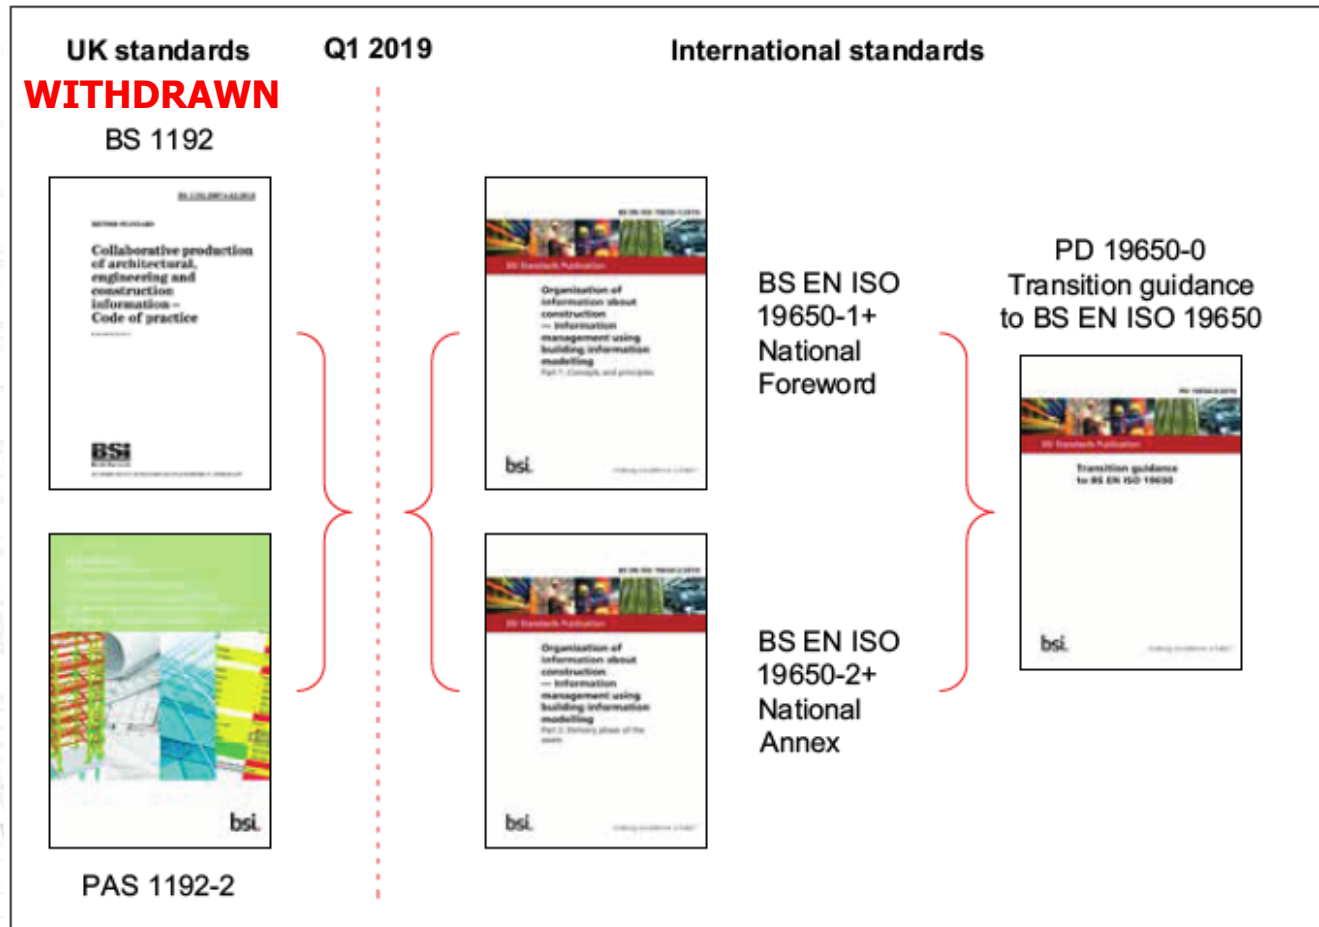

PAS 1192-6  
Health & Safety

# Introduction to ISO 19650

## Publication of the New International BIM Standards

# Introduction to BIM

## ISO 19650: What's the Same & What's New?

- Modified structure
- New/amended terms
- Some new requirements
- Clarifications
- Entire asset lifecycle viewpoint
- Increased flexibility
  1. Applied proportionately
  2. Less restrictive requirements
  3. Allow for regional differences
- Lessons learnt
- Core principles of BS 1192 and PAS 1192-2 remain

# Introduction to BIM

## BS EN ISO 19650-2 UK National Annex

- Information container identification

- Information container metadata:
  1. Status code (S0, S1, S2, ...)
  2. Revision code (P01.01, P01.02, ...)
  3. Classification (Uniclass 2015)
- Information model exchange
- Project's information requirements (PIR)

BS EN ISO 19650-2:2018

### **National Annex NA** (informative)

#### **National Annex to BS EN ISO 19650-2:2018**

##### **NA.1 General**

The role of a National Annex to a standard is to clarify its implementation within a country, but it should not preclude international cooperation and agreement.

A National Annex should clarify any regional, language or country-specific usage. For international collaborative projects, an international or a specific National Annex may be selected.

**Other countries are currently developing their own National Annexes.**

# Introduction to BIM

## Guidance Document PD 19650-0

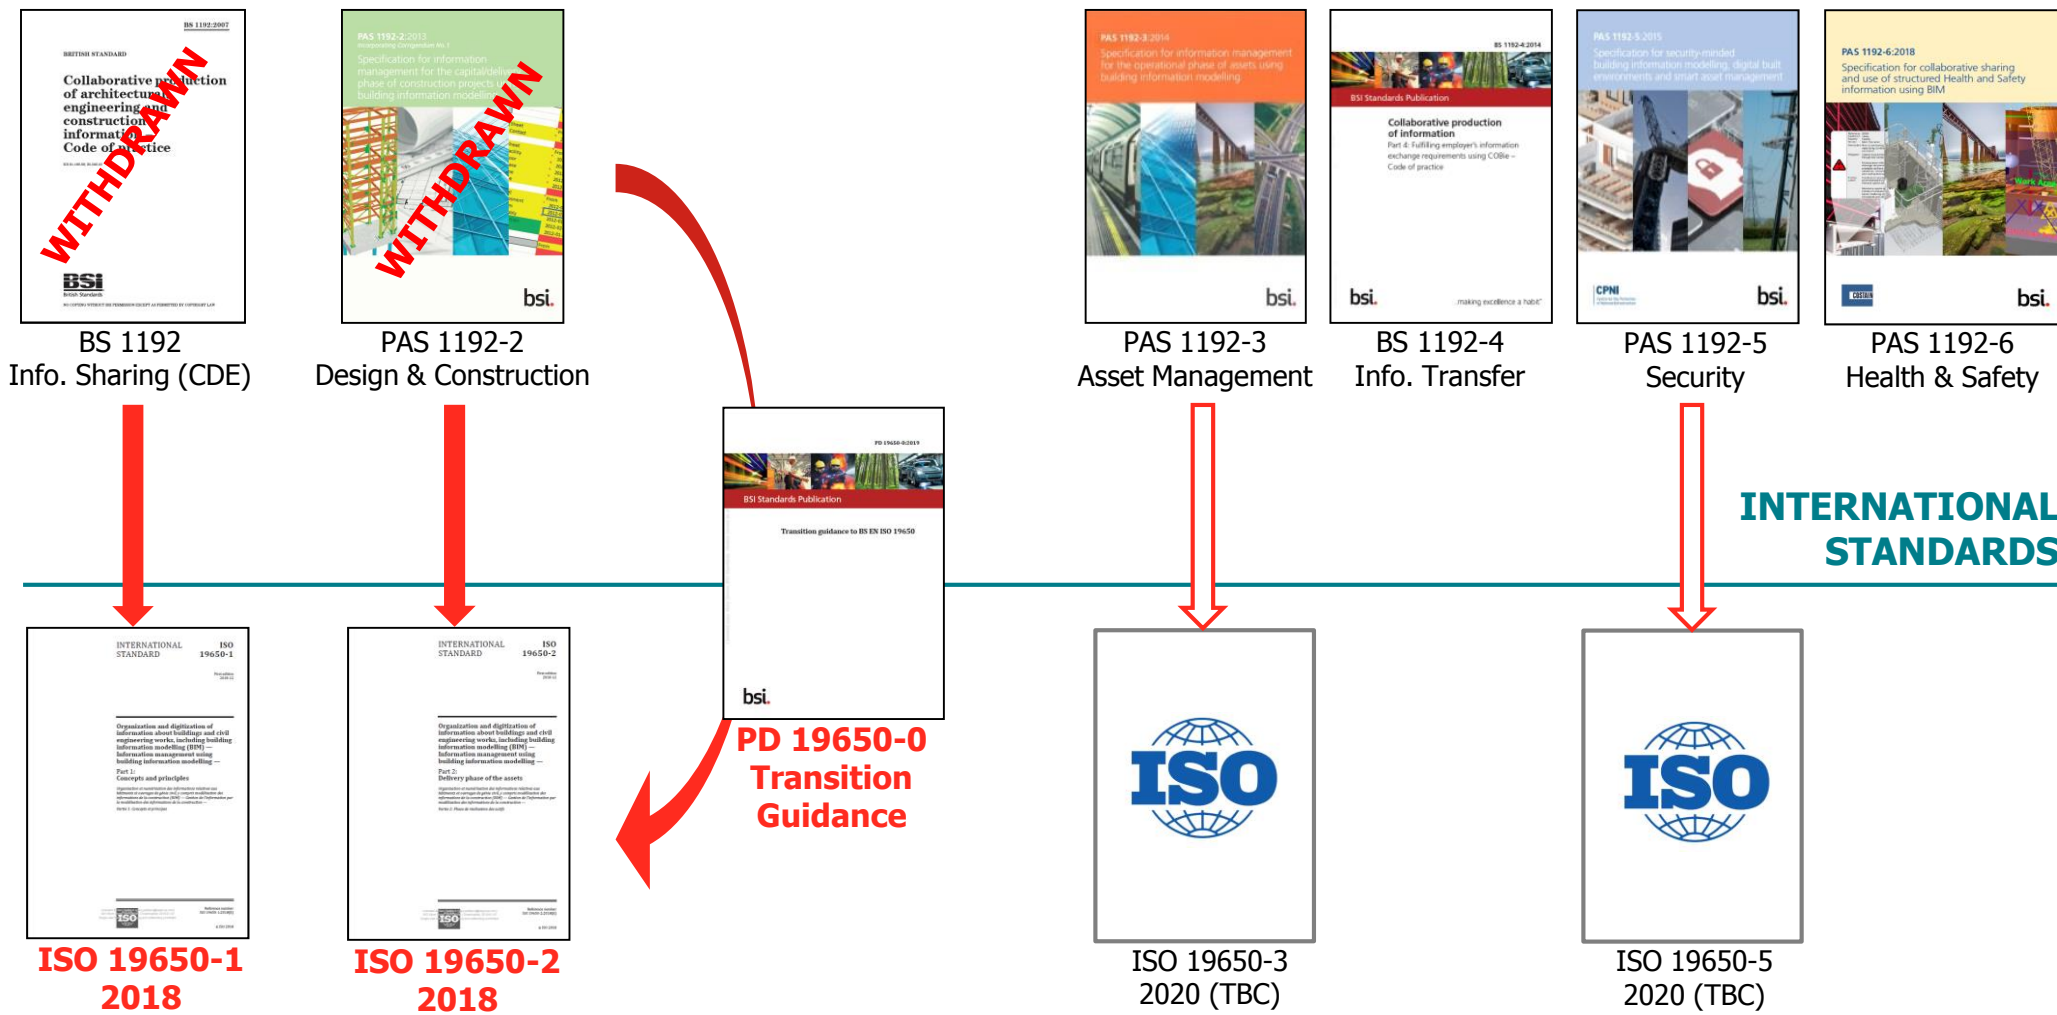

- Overview of BS EN ISO 19650-1/2
- ISO transition highlights
- Clause-by-clause mapping  
(BS 1192 & PAS 1192-2 → BS EN ISO 19650-1/2)
- Changes in terminology
- Transition guidance relating to BS 1192 & PAS 1192-2

# Introduction to BIM

## BIM Standards – Internationalisation of BIM

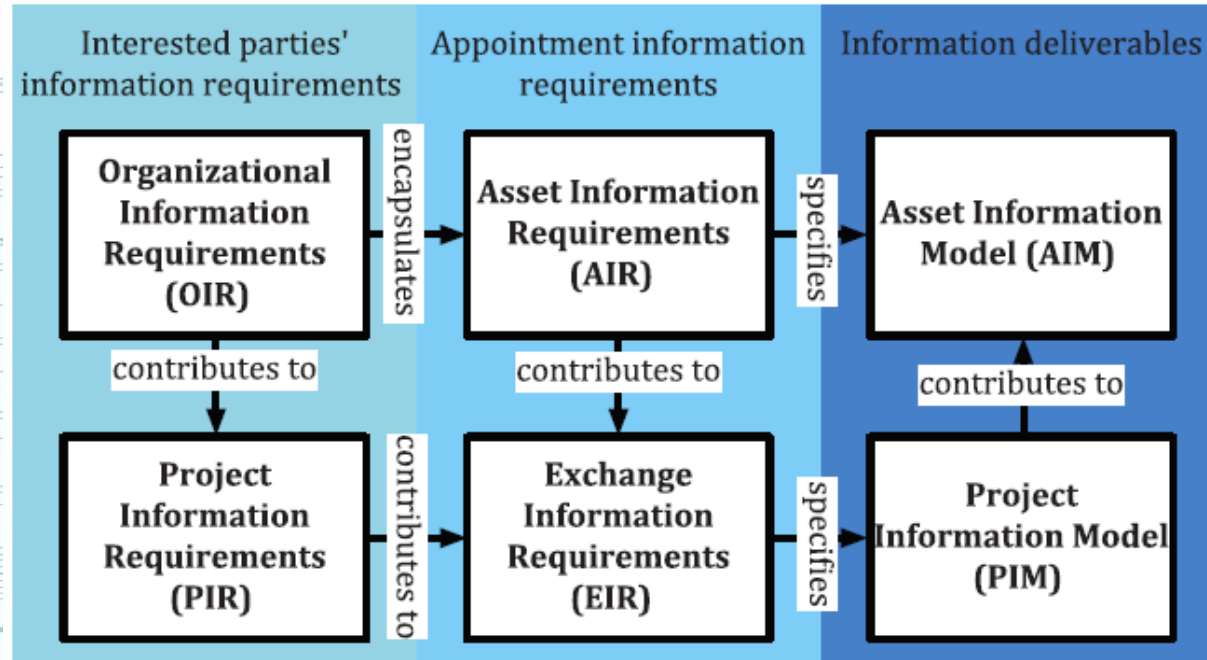

### UK STANDARDS

# Introduction to ISO 19650

## Core BS/PAS 1192 Principles Remain

- CDE
- OIR / AIR / PIR / EIR
- PIM / AIM
- BEP
- MIDP/TIDP

# Introduction to ISO 19650

## New & Amended Terms

**OLD**

**NEW**

BS 1192 / PAS 1192-2	ISO 19650-1/2
client	<b>A</b> appointing party
lead supplier (tier 1)	<b>B</b> lead appointed party
supplier (non-tier 1)	<b>C</b> appointed party
	<b>1</b> project team
	<b>2</b> delivery team
	<b>3</b> task team

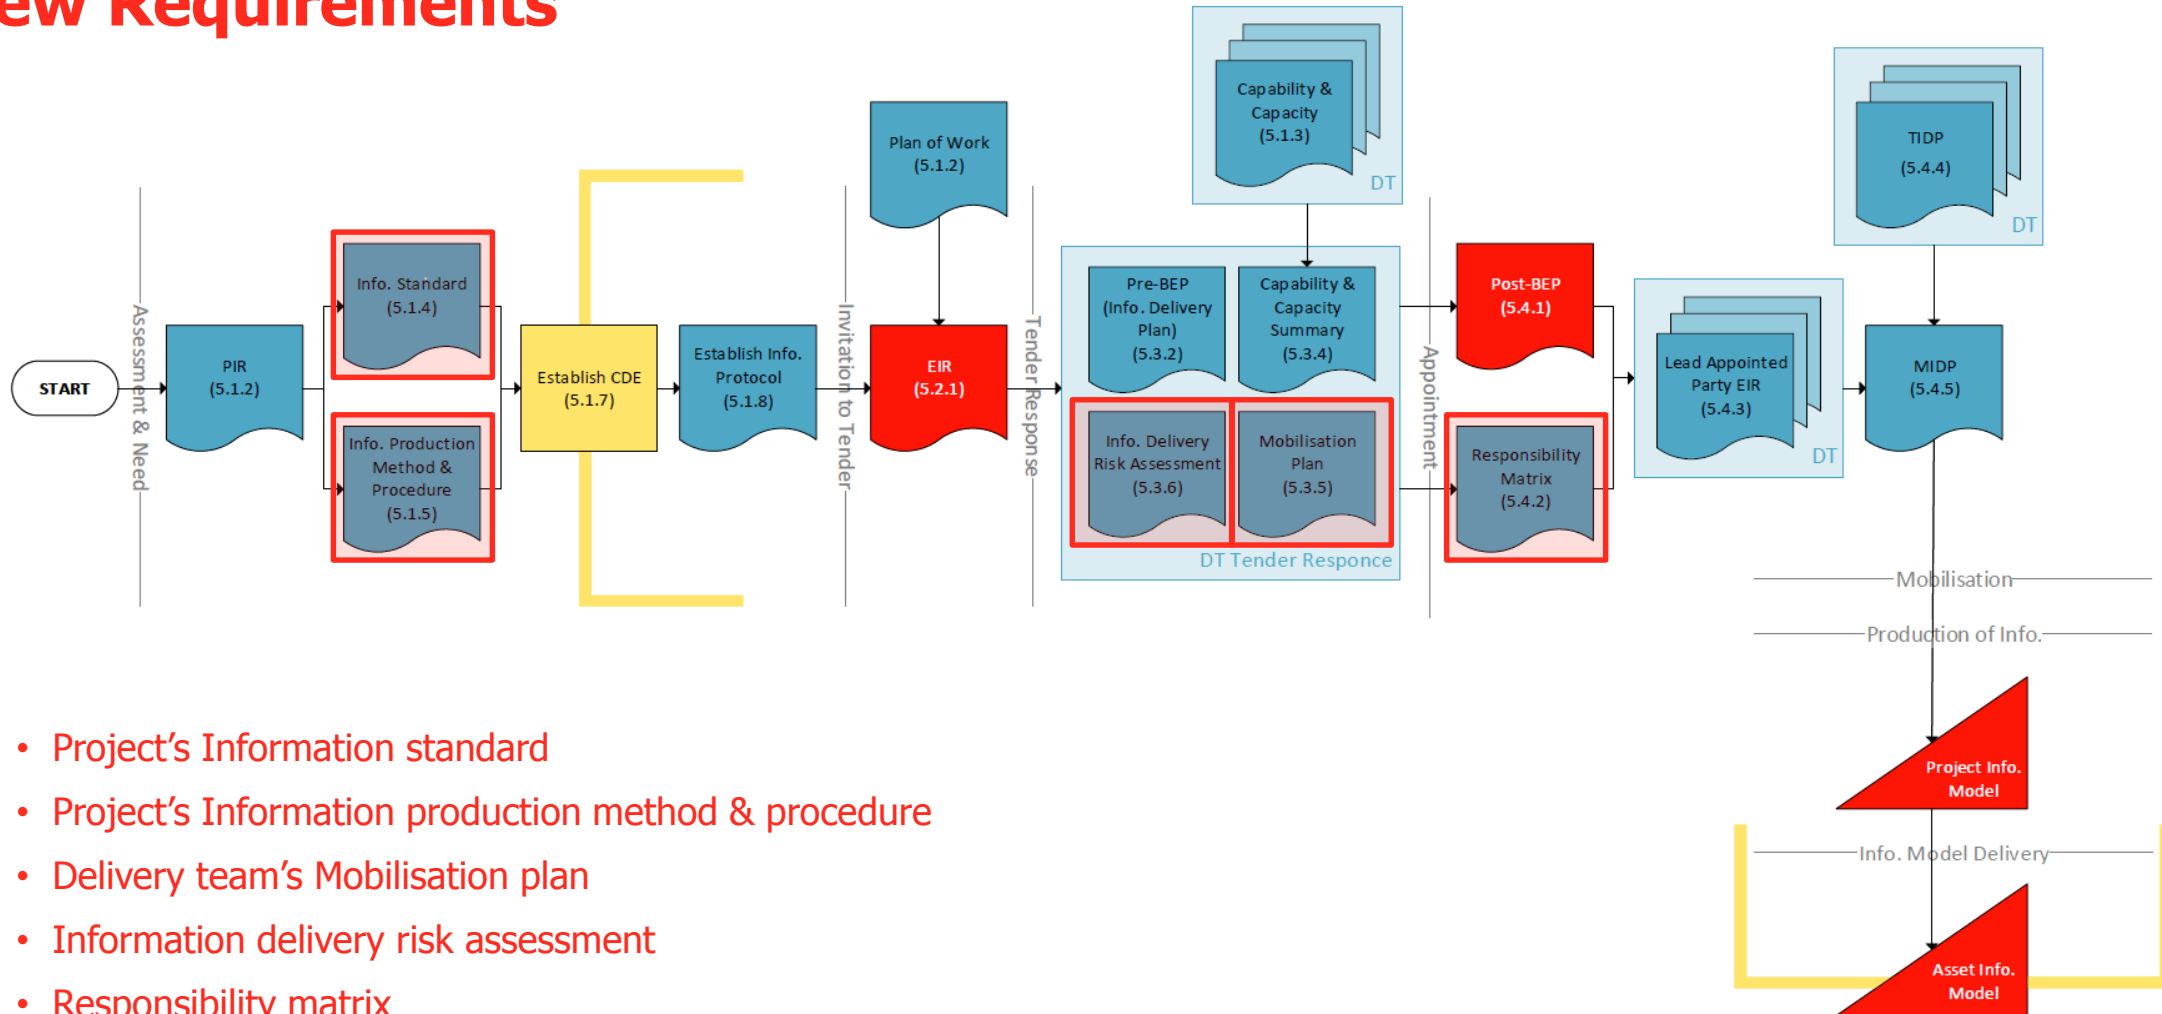

# Introduction to ISO 19650

## New & Amended Terms

OLD	NEW
BS 1192 / PAS 1192-2	ISO 19650-1/2
contract	appointment
EIR (employer's information requirements)	EIR (exchange information requirements)
Level of definition	Level of information need
PLQ (plain language questions)	PIR (project information requirements)
/	Project's Information standard
/	Project's Information production method & procedure
/	Delivery team's Mobilisation plan
/	Information delivery risk assessment
BIM Level 2	BIM according to ISO 19650
/	Information management function
CDE area	CDE state

# Introduction to ISO 19650

## New Requirements

- Project's Information standard
- Project's Information production method & procedure
- Delivery team's Mobilisation plan
- Information delivery risk assessment
- Responsibility matrix

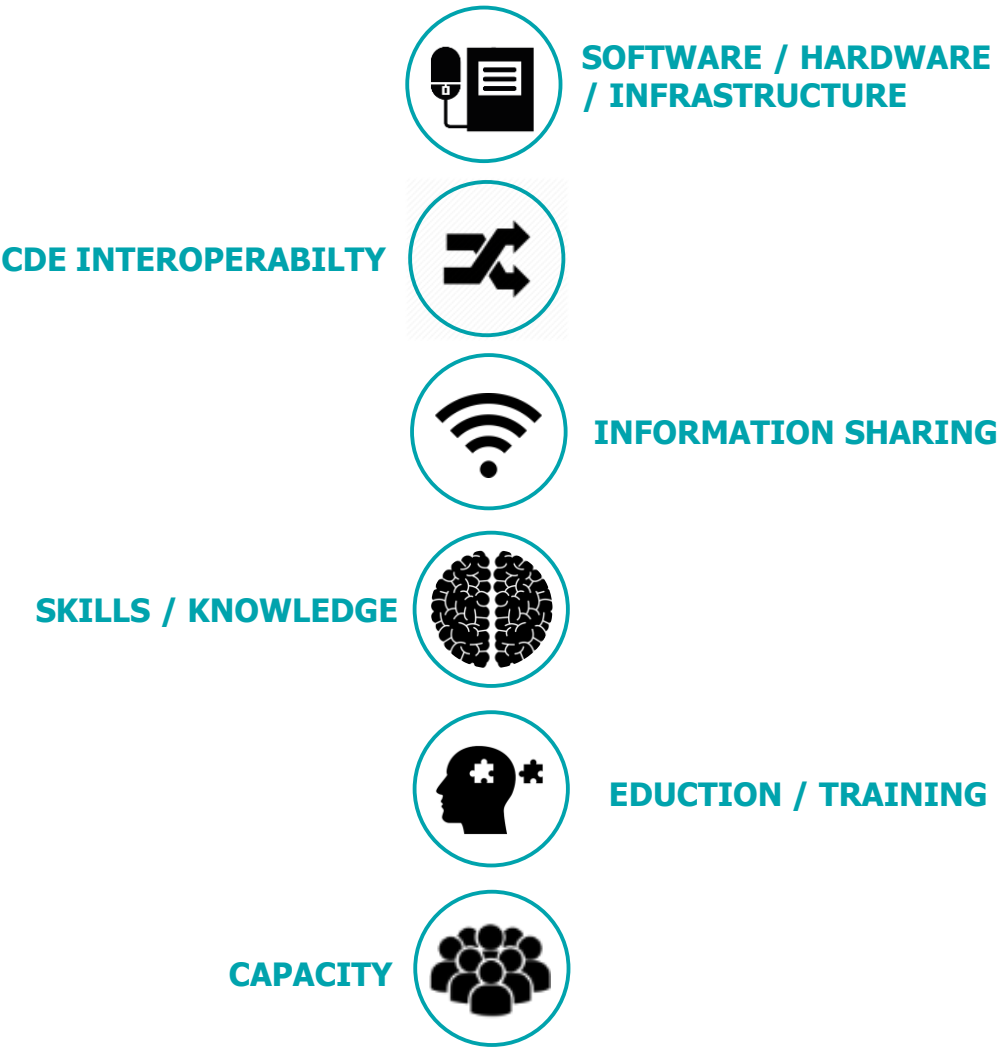

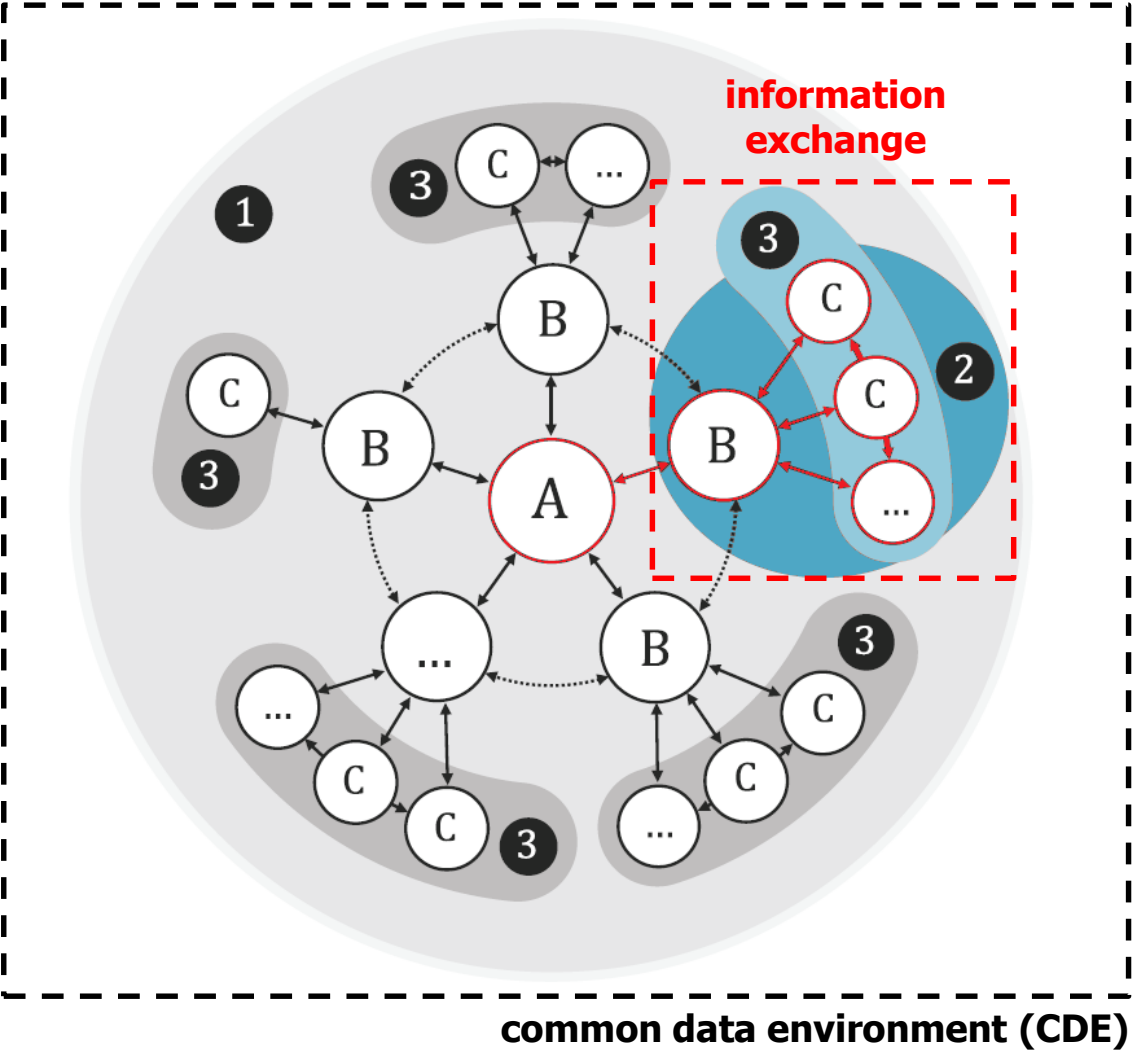

# Introduction to ISO 19650

## Increased Focus on Appointing Party's Requirements

# Introduction to ISO 19650

## New Requirements – Mobilisation Plan

# Introduction to ISO 19650

## New Requirements – Information Delivery Risk Assessment

# Introduction to ISO 19650

## New Requirements – Information Function Responsibility Matrix

BS EN ISO 19650-2:2018  
ISO 19650-2:2018(E)

Annex A  
(informative)

Information management assignment matrix

Table A.1 — Information management responsibility matrix template

ID	Key				
	R Responsible for undertaking activity				
	A Accountable for activity completion				
	C Consulted during activity				
	I Informed following activity completion				
	Task				
5.1.1	Appoint individuals to undertake the information management function				
5.1.2	Establish the project's information requirements				
5.1.3	Establish the project's information delivery milestones				

allocation of responsibility

# BSI BIM Certification

# BSI BIM Certification

## Collaborative Approach to Out BIM Schemes

2016

**Built Environment  
community.**

Clients • Designers • Constructors • Manufacturers • Operators

# BSI BIM Certification

## Supporting the Entire Project Team

### Appointing Party / Client

← Helping clients specify information requirements to realise maximum benefit of BIM

### Lead Appointed Party / Tier 1

← Ensuring that the entire delivery team understands and can meet the project's/asset BIM requirements

### Appointed Party / Supply Chain

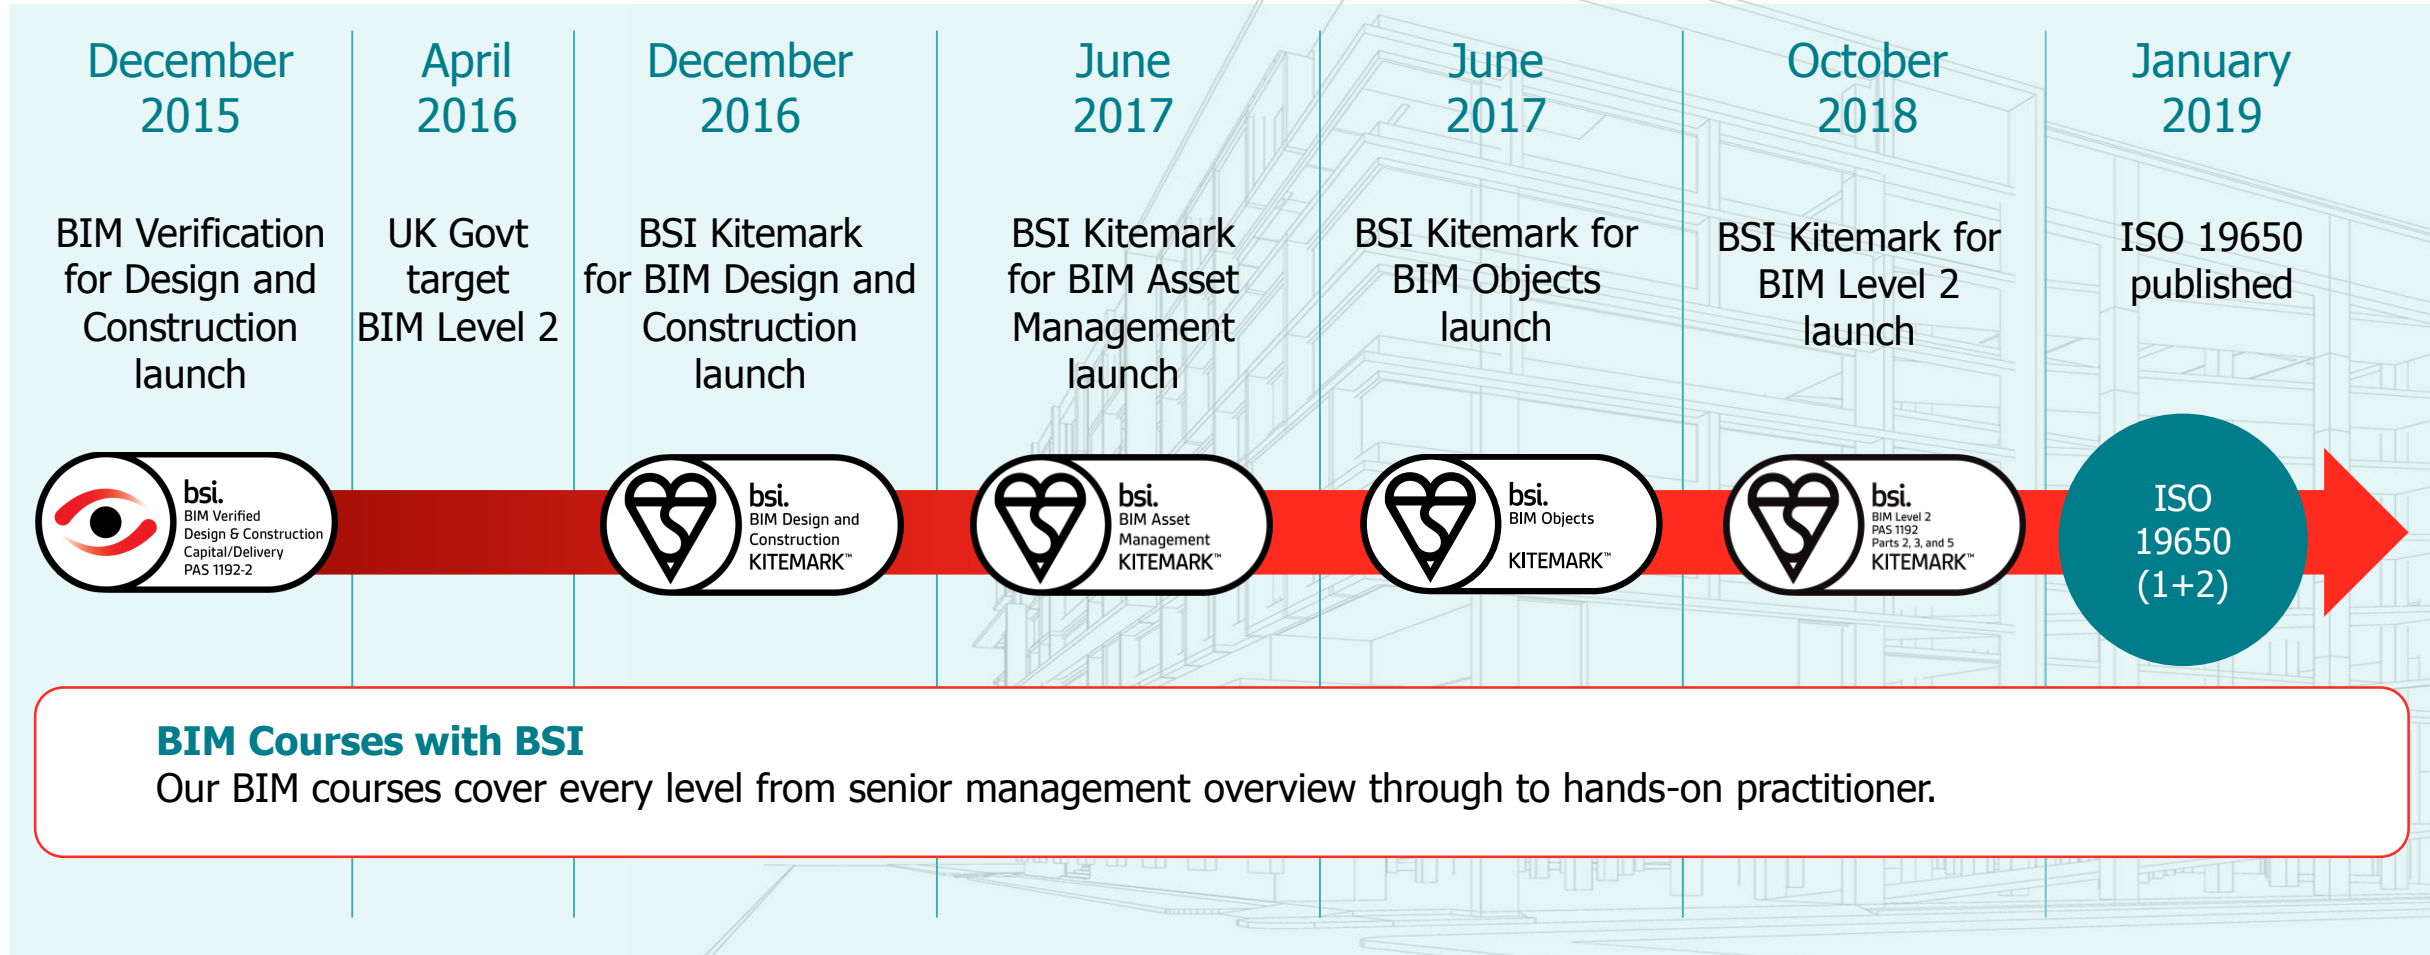

← Creating a consistent approach amongst the entire task teams to fulfil BIM appointment requirements

# BSI BIM Certification

## Our Certification Schemes

### BIM Courses with BSI

Our BIM courses cover every level from senior management overview through to hands-on practitioner.

# BSI BIM Certification

## BIM Design & Construction Verification

ISO 19650

**Design &  
Construction**

**BIM processes**

(ISO 19650-1/2)

**competency  
requirements**

**management  
system**

(e.g. ISO 9001)

# BSI BIM Certification

## BIM Design & Construction Verification

### Demonstrates:

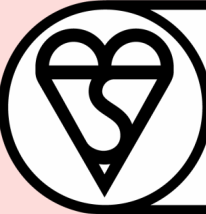

- Your continued capability to deliver a BIM project
- Processes and procedures are embedded in your business
- Evidence of your personnel competency for BIM
- You maintain a complaints procedure

# BSI BIM Certification

## BIM Design & Construction Kitemark

ISO 19650

# BSI BIM Certification

## BIM Design & Construction Kitemark

### Demonstrates:

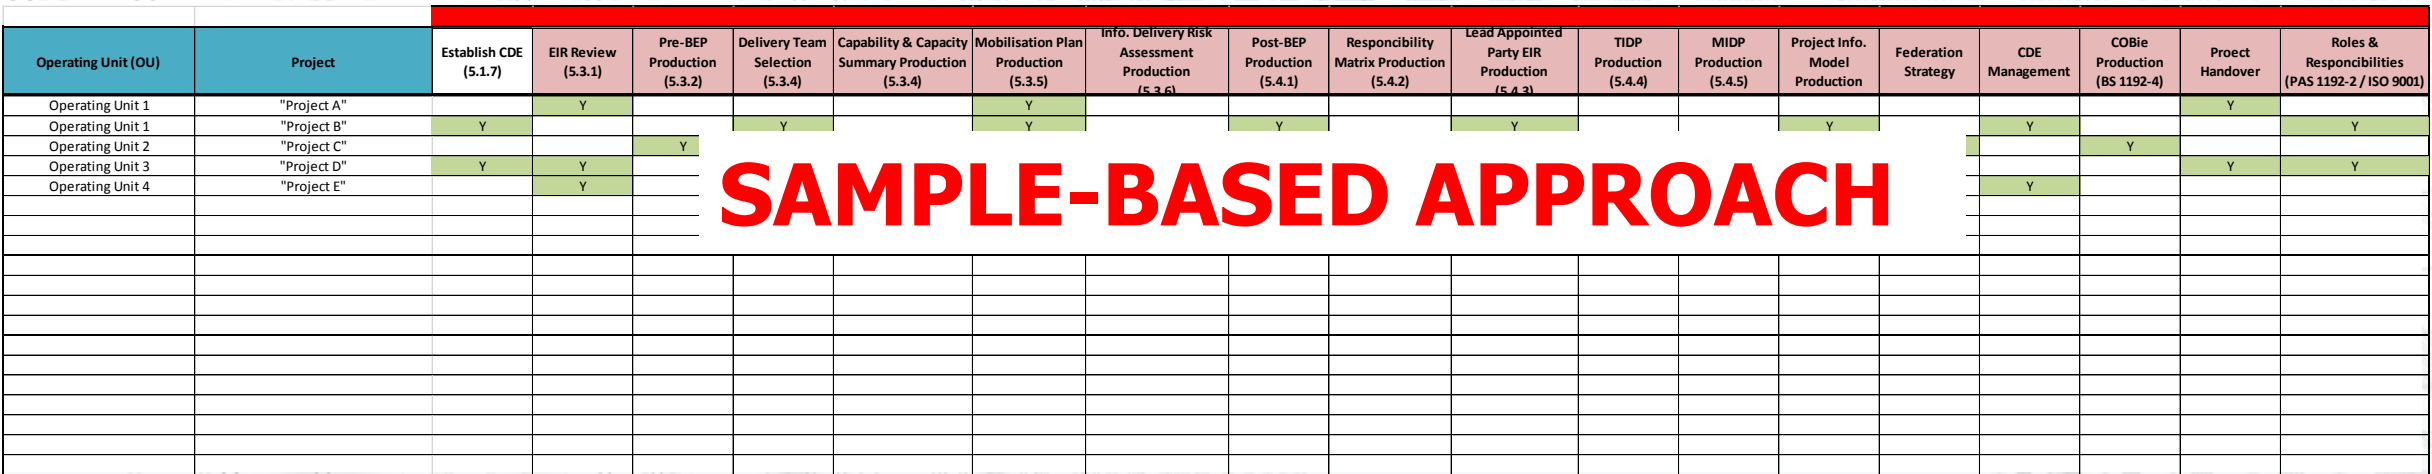

- Processes and procedures are embedded in your business
- Evidence of your personnel competency for BIM
- You maintain a complaints procedure

### Plus:

- Your capability **and successful delivery** of BIM projects
- Provides **confidence to your clients** that previous clients are satisfied with your work
- Your BIM **maturity** in the market place
- **Greater supply chain collaboration and peace of mind**
- **Brand recognition with BSI Kitemark™**
- **Regular audits = regular habits**
- **Cost reduction**
- **Consistency across sites**

# BIM Design & Construction Kitemark Requirements – Projects

# BSI BIM Certification

## BIM Design & Construction Kitemark Requirements - CDE

### Architecture

- Software/systems used
- Interoperability of software/systems

### Process

- CDE setup
- CDE management

### Functionality

- CDE use

# BSI BIM Certification

## BIM Design & Construction Kitemark Requirements – Client Satisfaction

What are the client's expectations

What are we going to measure?

How are we going to retrieve the measurement?

What will we do with the measurement?

BIM focused

Continual Improvement Process

# Assessment: Collaborative engagement

Addressing collaboration across the supply chain to realise BIM benefits

# 1

**Value Creation:** Establishing the value of a collaborative relationships

Examples:

Continual improvement

Learning from experience

Joint innovation

Risk reduction

# Assessment: Collaborative engagement

Addressing collaboration across the supply chain to realise BIM benefits

## 2

**Working Together:** Looking for examples of promoting collaboration by the organisation (at project and non-project level)

Examples:

Workshops

Publications  
(case studies / guides)

Assessment  
(feedback)

Training  
(process / software)

Sector  
engagement

Technical support  
(onsite/ online)

Software support  
(technical / financial)

Role / Join  
exchange

# Steps towards ISO 19650

Achieving Your BIM Kitemark or Verification certificate

## Stage 1 Assessment

- Understanding requirements
- Systems/procedures in place
- Suitable evidence
- Non-conformities
- Plan Stage 2

## Stage 2 Assessment

- On-site assessment:
  - ✓ Process
  - ✓ Systems
  - ✓ People
  - ✓ Projects

**INITIAL**  
**ON-GOING**

## Continuing Assessment Visit

## BSI BIM Certified Clients (July 2019)

- bsi.
